In The Specification:

Please replace the paragraph beginning at page 6, line 8 with the following rewritten paragraph:

- In Figure 1 is shown as first embodiment of the present invention. As shown, there is a structure, in this case a porous structure 1 that has one or more areas of porous materials 2 and one or more reduced porosity or non-porous areas 3. In this arrangement, the reduced porosity or non-porous areas 3 are formed as a series intersecting lines that form a series of square grids, the interior of each square are formed of porous material 2. While the affected areas are described as being of reduced porosity or being non-

porous, it is preferred that they be essentially non-porous, e.g. that liquids do
